Humanism is a positive approach to life centred on people, their wellbeing and happiness.

Humanists share a non-religious ethical outlook and seek to create a more open, just and caring society.

Humanists think:

- We can work out for ourselves what's right and wrong based on empathy, respect and compassion for others.
- We can find our own meaning and fulfilment for the one life we know we have.
- The best way to understand the world is using evidence, reason and science. We see no persuasive evidence of the supernatural, god(s) or an afterlife.

Do come along to one of our meetings and find out more. Everyone is welcome.

"Happiness is the only good. The time to be happy is now. The place to be happy is here. The way to be happy is to make others so."

Robert Ingersoll, 1833-1899, Orator and activist
